VILLA ORTIGA
VO

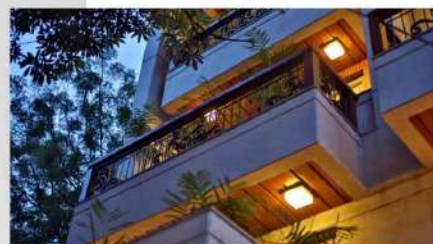

He strongly believes that his work invites clients to connect more deeply with themselves and their needs for style and comfort. At Villa Ortiga, Sarabjit is committed to translating sound knowledge, fierce passion, and vast experience into real-time projects that generate distinct emotive and telling experiences across spaces. His international exposure coupled with extensive travels add a global sensibility to his work.

Each space is unique, specially crafted to meet the needs of the clients. A creative play in volume, experiments with the massing, skilful placement of wall openings and exploration of scale intensify the artistically integrated interior design. The design is layered with intricate detailing through a play of elements such as materials, textures, colours, and lighting facilitated by technological interventions that cater to the senses.

Villa Ortiga has a team of enthusiastic designers passionate about delivering spaces that imbibe the ideals of beauty, luxury and refinement. The studio amalgamates a complete package of beautifully designed contemporary architectural buildings, imbued with aesthetically pleasing interiors. The spaces are further enhanced by the curated statement furniture pieces, luxurious furnishings in various prints and patterns and enticing decor, styled creatively to weave a complete design story.

The firm has completed more than 200 residential, commercial and hospitality projects in cities spread across the country such as Delhi, Chandigarh, Ludhiana, Chennai, Bangalore, Kasaul and Shimla, and internationally in Dubai, Kuwait, Tokyo and Tashkent. The architecture and design community have widely recognised and applauded the firm's unique style and seasoned design sensibilities. Villa Ortiga, with its refined style and global approach, is a celebration of everyday life, reimagined and redefined in a luxurious style.
